Dear Mr. Hoover:

I sincerely appreciate your thoughtfulness in sending me an autographed copy of your splendid book "Masters of Deceit", which was delivered to me personally by Mr. Davidson yesterday afternoon.

It is an honor to be associated with you on the Board of Trustees of The George Washington University and to be identified with the operations of the Boys' Clubs of America, in which I know you are most interested.

I recall a speech you made about ten years ago at the National Convention of the Boys' Clubs of America, at which time I was serving as President of the Boys' Club of Washington. This took place at the Shoreham Hotel and you were introduced by Mr. Herbert Hoover. What you said then will never be forgotten. I am looking forward to reading your book.

With grateful appreciation,

Sincerely,

E. K. Morris

Dear [REDACTED]
[REDACTED]

Your letter of October 26, 1961, has been received, and I want to thank you for your interest in my book, "Masters of Deceit."

With reference to your discussion concerning the threat of communism in the United States, may I say that the power and influence of the Communist Party, USA, cannot be measured by the number of its members. The communists' strength lies in their aggressive, never-ceasing efforts to subvert others and in their ability to dupe well-meaning persons into espousing the Party line. It is true that if the Communist Party, USA, were completely divorced from the raging mainstream of the international communist conspiracy, it would not be a serious threat in and of itself to our constitutional liberties. However, the Communist Party, USA, is an inseparable link in the chain of this world-wide conspiracy against God and freedom, receiving its orders directly from Moscow. Therein lies the real danger that we face as a Nation. Certainly, at this time, the security of America is the most vital concern of this Nation.

I am enclosing two of my recent reports which are the ones I believe you referred to in your letter in addition to some other material you may like to read.

Sincerely yours, ✓

Dear Mr. Hoover:

Would you please send me your report on Communism and Subversion,
recently filed with a Senate Committee.

Parts of this report were quoted on the TV program "The Threat", over
K I N G, in Seattle. At the beginning of the program, Robert Kennedy
quoted from it and I believe he said it was from the report of several
months ago. Then Dr. Arthur Fleming also quoted from your report and
mentioned it was within a couple of weeks. I was wondering if it was
the same report - and if not, I would like to obtain them both.

I have just recently read your book "Masters of Deceit", for which
I must highly commend you. It gave me the impression that there was
a definite threat of communism within the United States. However, I
note it was written a few years ago and I have heard recent reports
that the American Communist Party has definitely declined and is no
longer a threat from within. Is this correct? And how do the extreme
rightists get their "facts" that the State Department is overrun with
communists and the internal threat is very imminent?

I would very much appreciate that report, and information on these
points.

Thank you.

Sincerely,

In the statement attributed to me to which you referred, the remarks are excerpts of data in Chapter 7 entitled "What Do U. S. Communists Claim?" in my book, "Masters of Deceit." This chapter sets forth five of the most deceptive claims made by the Communist Party, USA, including the false pretense that communists are liberals. I feel that this chapter of the book speaks for itself and that any additional comments on my part would be superfluous.

Enclosed is some material on the general subject of communism I thought you might like to read.

Dear Mr. Hoover:

Enclosed, you will find a clipping from the editorial page of the 10/23/61 edition of the Houston Press.

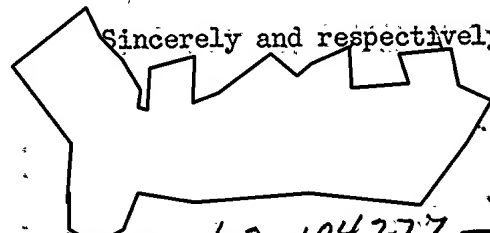

You will notice that the writer has quoted from past statements of yours to lend support to their particular viewpoint; but in view of other statements that I have read of yours, I cannot help but believe that these remarks have been taken completely out of context, and thus the original meaning distorted.

This is becoming the strategy of some elements in this area - taking the statements of noted and respected men and so removing them from context as to make them mean something that was never in the mind of the original writer.

If this has been the case in this instance, would you consider writing a short letter of reply that could be published on the editorial page of the Houston Press that would serve as a rebuttal and rebuke to those who are engaging in this practice?

I feel that such action would go a long way toward discouraging those who are using such methods to distort the truth. If you do not believe this to be a proper course to follow, would you mind advising me as to how this practice can be effectively countered?

Sincerely and respectfully,

Mrs. Pratt on Difference In Liberalism, Communism

Editor The Press:

After reading Fred J. Drew's letter in The Press of Oct. 9, is his idea of liberal government Cuba?

Is a government liberal that starves its people, who can not express their opinion and have no freedom of the press?

I haven't heard anything about Castro giving out any hand-outs to make life easier for his people. It's been take, not give.

I think in 1952 Sen. McCarthy did his job well in convincing a lot of people that all Democrats (especially liberals) were Communists.

I want to quote what J. Edgar Hoover says on the subject:

"Communists are not liberals.

Communism is the very opposite of liberalism. Liberalism means increased rights for the citizen. Make no mistake, Communists do not like liberalism, and attempt by every means to destroy it. The Communists realize that true liberalism is a bitter enemy, a fighter for the things that communism opposes. The liberals do not want revolution but genuine social reform. That is why the Communist detests them.

"Communists are not progressives. The Communists detest Democratic reforms. The Communists do not believe in democracy. All the claims the Communists make about being democratic, having any liberal form of government is all false just to mislead the people, and in this country we have many that are glad to believe what they wish them to. They believe in dividing the people, then conquering them."

I am sure many letters I have received are Communistic in their viewpoint, as they are anti-liberal, anti-democratic, anti-social, and the Communists are against them all.

All the people who signed the Declaration of Independence were liberals, hated by the Tories.

All the countries that have gone Communist first suppressed the liberals. No country with a liberal government went Communist.

ping Lane,

State Department heads, the Oregon National Guard and state police will get a copy of J. Edgar Hoover's book, "Masters of Deceit," to read, Gov. Mark Hatfield said Tuesday.

It works as well as ways of combating it, Hatfield said. Hatfield said sufficient copies will be made available on a request basis to assure each enlisted man and officer in the guard, each state agency head and each state police officer access to copies.

The governor also applauded efforts of Dr. Leon P. Minear, state superintendent of public instruction, to strengthen state school curriculum with more emphasis on patriotism.

Governor Orders 500 Copies Of Hoover Book

SALEM (UPI) — Gov. Mark O. Hatfield said he has ordered 500 copies of J. Edgar Hoover's book on Communism for circulation among his department heads, the Oregon National Guard and the state police. The book is called "Masters of Deceit."

The book describes Communism, what it is, how it works and ways of combating it.

AT THE same time Hatfield applauded Dr. Leon R. Minear, state superintendent of public instruction, for Minear's efforts to strengthen the curriculum with more emphasis on patriotism.

Minear is pushing for a Democracy versus Communism class in the public schools, for high school seniors. It would compare the two ideologies, pointing out the evils of communism and the advantages of democracy.

In praising Minear Hatfield

said, "too many people are attracted toward the strictly negative approach. It is not enough to be against communism. There is a real education job in better comprehending democracy and the dynamics of our economy."

HATFIELD said sufficient copies of Hoover's book would be made available on a "requested reading basis" to assure each enlisted man, each officer in the guard, each department head and each state police officer access to copies.

"We are hopeful though the distribution of Mr. Hoover's book the menace of Communism may be better known. At a time when our freedoms are threatened and at a time when many National Guard units from other states have been called up for full time status, I think it is important for us to know as much as possible about those who seek to overtake us," Hatfield said.

"This is not an emotional approach. It is a factual, common-sense, objective analysis," the governor said. He added that he has discussed the plan with Hoover, chief of the FBI; Adjutant Gen. Alfred Hintz of the Oregon National Guard and H. G. Mai-son, state police superintendent.

On 8-11-61, directed a letter to the Bureau concerning her feelings with respect to communism. At that time, she requested the Director autograph a copy of "Masters of Deceit" for her. As she was not identifiable in Bufiles, she was sent an in-absence form acknowledgment on 8-16-61 and the field was requested to make appropriate inquiries. By letter of 8-19-61 SAC, Richmond advised that no derogatory information was known concerning her and her parents enjoy an excellent reputation. The SAC recommended the Director not autograph a copy of his book to her inasmuch as this might bring a large amount of correspondence and a mass of books to be autographed by the Director. It was felt, however, that if was really interested in combating the communist threat and actually bought a copy of the Director's book, it should be autographed for her. b6

The Director acknowledged her letter by outgoing dated 8-22-61 and advised her that if she sent a copy of the book, he would autograph it for her.

By letter of 10-24-61, thanked the Director for his letter and the reprint material enclosed. She included a copy of "Masters of Deceit" for autographing. b6

Dear Mr. Hoover:

I have recently read your very impressive book "Masters of Deceit" which challenged me to look further into the subject.

I have heard a couple of messages on the subject of "Communism" lately and had no idea they were so active. This, I believe, is the average attitude. If it weren't for the "peace that passeth all understanding" which we receive from the Lord Jesus Christ things would seem much worse to me.

It is a wonderful and comforting thought to know that God is still on the throne and in charge.

Since hearing about your book I have tried in at least a dozen stores to obtain it, but couldn't. My husband finally borrowed a copy from the library.

I would appreciate you sending me any more recent information on the subject or else a list of where it could be obtained. If you know where I could get the paper back edition of your book also, I would appreciate it. *cs*

Some of this information I hope to make use of in a public speaking course I am now enrolled in.

For Every Need:

"But my God shall supply all your need according to his riches in glory by Christ Jesus." Phil. 4:19.

MY DECISION

Being convinced that I am lost, and believing that Jesus Christ died for me, I now accept Him as my Saviour, and with His help, I intend to live the Christian life and confess Him before others. If you will do this, write "I will" in the space at the right. If you have already accepted Christ, write "I have."

Now sign your own name instead of "whosoever" in John 3:16.

"For God so loved the world, that he gave his only begotten Son, that

who believeth in him should not perish, but have everlasting life."

In this life only one runner can win a race. In the Christian life everyone who chooses Christ is a winner. Those who reject Him lose for time and for eternity. Will you win or lose?

"Right always wins; wrong always loses." It is right to accept Christ and wrong to reject Him. Christians go to heaven; sinners go to hell. Where are you going? Please read and heed these verses:

ALL HAVE SINNED

"For all have sinned, and come short of the glory of God." Rom. 3:23. "Be sure your sin will find you out." Num. 32:23. "All we like sheep have gone astray; we have turned every one to his own way." Isa. 53:6. "All our righteousnesses are as filthy rags." Isa. 64:6. "The heart is deceitful above all things, and desperately wicked." Jer. 17:9.

The outstanding example of public spirit shown by you in seeking to inform young citizens of the communist menace is indeed encouraging. Communism today poses a sinister threat to our democratic way of life. Its mission is to destroy our cherished freedoms and to establish a dictatorship of tyranny. Only by alerting ourselves to the danger of this atheistic conspiracy can we effectively combat it.

SA Kenneth W. Whittaker advises that during a recent conversation with [] Proprietor, Ten Penn Restaurant, (opposite Justice Building), who has been a personal friend of SA Whittaker for several years, Bernier indicated an interest in helping to combat atheistic communism in any way he could. (Bureau indices negative re []) b6 b7C

[] inquired as to what he, as a small businessman could do for his country to help expose the communist threat to our youth. SA Whittaker advised him of the great success educators throughout the country have had in establishing courses on communism in their schools and using "Masters of Deceit" as a textbook. SA Whittaker also told [] of the recent article by Lyle C. Wilson, which appeared in the Washington Daily News, and outlined the work of "Operation Alert" throughout the country. [] stated that he would like to help in some way in this work, and, that although he was not in a position financially to do a great deal he would like to subsidize a few courses in communism at some local Catholic High Schools. [] had been given a copy of "Masters of Deceit" by SA Whittaker in the recent past and upon completing it was most outspoken in his praise for the Director and the work of the FBI.

Recalling an informal conversation with a Brother [] Director of Studies, Our Lady of Good Counsel High School, Wheaton, Maryland, some months past, at which time Brother [] indicated to SA Whittaker his interest in initiating a course on communism for his senior students, SA Whittaker contacted Brother []. He was most enthusiastic to hear of [] offer to supply hard-back copies of "Masters of Deceit" in sufficient quantity to enable him to furnish it to each member of the senior class and the faculty. b6 b7C

Subsequently, SA Whittaker was contacted by Monsignor John S. Spence, Director, Catholic Office of Education, Archdiocese of Washington, D. C., who explained that he had heard of Brother [] proposed course of study and would like to initiate similar courses in a few of the Catholic schools throughout Washington, using "Masters of Deceit" as a textbook. of this interest in his proposed plan, was overjoyed and stated he would like to initiate action to purchase 500 hard-back copies of "Masters of Deceit" for the use of these schools. [] an outspoken admirer of the Director, is most enthusiastic about the prospects of this program.

SA Whittaker advised [] that he would make inquiry through the proper channels regarding a possible discount on an order as large as 500 copies of "Masters of Deceit." In view of [] interest in this matter, and since he is personally acquainted with so many Agents in the Bureau, it is felt that by extending him the usual Bureau rate in purchasing 500 copies of "Masters of Deceit" he will be encouraged to spread his influence among other businessmen to similarly adopt such a program on their own. RECOMMENDATIONS:

1. That we take advantage of [] generous offer made out of his admiration for the FBI and zeal against communism and that SA Whittaker be permitted to advise him that he may place his order for the 500 hard-back copies of "Masters of Deceit" directly with the Henry Holt and Company in New York.

2. That upon approval, this memo be expeditiously routed to Crime Records Division so that they may advise Henry Holt and Company of [] forthcoming order.

3. That a letter of appreciation be sent to [] for his interest in furthering the Bureau's work in combating communism.

What can you as an individual do to combat the Communist conspiracy? First you must know what it is and how it operates.

There is no better authority on the subject than J. Edgar Hoover, director of the Federal Bureau of Investigation, whose book, "Masters of Deceit," exposes the menace America and the free world faces.

Today The Globe-Democrat starts a series of articles from Mr. Hoover's book, a condensation of which appeared in The Globe three years ago. Since that time we frequently have received requests for reprints of the series and scores of suggestions that it be repeated. In response to those requests, the major portions of "Masters of Deceit," which deal with Communism as it affects YOU, will appear daily in The Globe-Democrat.

Dear [redacted]:

Your letter of October 30 has been received, and I am most appreciative of your interest in my book, "Masters of Deceit."

I can certainly understand your concern about the threat posed by international communism, and I have repeatedly emphasized the existence of this danger in public statements. If the Communist Party, USA, were completely divorced from the raging mainstream of the international communist conspiracy, it would not be a serious menace in and of itself to our constitutional liberties. The Communist Party, USA, receives its orders directly from Moscow, and we must be forever cognizant of its relation to this world-wide conspiracy.

While the heavy pressure of my official responsibilities makes it impossible for me to do as you suggested, I do want to express my thanks for your offer of assistance, and it was also good of you to give me the benefit of your observations. Correspondent, in his letter, commended the Director for "Masters of Deceit" and suggested Mr. Hoover prepare a similar book on the dangers of international communism. He stated he knew the German and Russian languages and offered his assistance to the Director. He went into a lengthy discussion of the historical and philosophical background of the world-wide communist movement as he felt it should be used in the book he proposed. He also suggested that the book should be translated into several languages.

Dear Mr. Hoover,

Your book "Masters of Deceit" is excellent with regard to the American communism. The danger for the world and for the U.S.A. lies now not so in American, but in the international communism. I think, it would be invaluable would you bring your idea, to the ultimate point i.e. to the international communism.

We see now U.S.A. in a bitter and often losing fight with Moscow, Peiping and even with Castro in Cuba. The strength of these countries lies in the fact, that many people believe in communism or are influenced by communists or their agents. They hope to find in communism better social justice and better opportunity for the common people.

The truth should be told to them in a similar way as you, Mr. Hoover, told it to the American People about American Communism. Would the communism be discredited, the fight against Moscow, Peiping and Castro should be much easier. There will be no more stoning of U.S.A. Embassies in the world and U.S.A. Vice President in South America.

The truth about "Masters of Deceit in Kremlin" once should be told.

I think, Mr. Hoover, you are the best qualified man to do this job. Would I be able to help you (I know Russian and German languages), I will do it willingly. I don't want a single cent for it, but one condition should be strictly held: no one reference to my name should be done and I send this letter and tell my name only personally to you, Mr. Hoover.

In following I give basic idea about "Masters of Deceit in Kremlin".

In your book "Masters of Deceit" you cite Lenins expression about "classen-fight moral". In one of his speeches he said: "Moral is what is favorable for the proletariat; immoral - what is unfavorable". Both expressions practically say: Moral is what is favorable. Consequently to lie, to murder, to blackmail, to terrorize a.s.o. is, accordingly to Lenin, moral.

As the first communist state was founded by Lenin, all in this state is based on lies.

Before Lenin could size the power by force, he taught: "Peasants, take the land from the estate owners. The land should belong ~~to those who work on it~~ to those who work on it".

As soon as he could size the power, he founded agricultural collectives and started forcible collectivization. This fact was hardly noticeable because he did it in his "Lenins" kind: perfide, without any explanation. He had already astonishing success in such activity by destroying the free trade.

He did not forbid the trade but increased the turnover tax about ten times. Besides the tax was put on every square meter of the shop sign, on every shop window and ultimate on every shop door. It became soon clear to every merchant that, no matter how much he sells, he will never earn enough money to pay all taxes, nothing to say about profit for the living. The

merchants started to close their shops and went as salesmen in state cooperatives.

In exactly the same way, he started steadily increase taxes and provision-supply duties of the peasants. At the same time he was giving machines, seeds, financial help, credits a.s.o. to the collective farms. He steered clearly to the point where peasants would have no other choice as to starve on their own land, or give it up and go into collective farm to save theirs and their families lives. But before he reached this point the sons of the peasants in the Navy aroused. In March 1921 the sailors of Kronstadt (naval port and fortress) mutinied and sent to the Soviet Government 13 points request.

The rebellion was brutally suppressed but Lenin, as a shrewd politician, reversed his politic for a time saying: "The new economic policy, which we introduce now is a step backward, but we do it only with intention to do later two steps forward". From these words is clear that he did not change his intention to take the land from the farmers, but only postponed it until a more suitable moment. He died before this moment came and his successor Stalin realized the forcible collectivisation in his own also utterly cruel way.

I tell this only to show that the peasants were intentionally deceived and betrayed. The land was taken from those who worked on it and came into the hands of the Communist Party which does not till the land.

It is especially important to make it clear that the expression: "In communist countries all belongs to the people (or to the state)" is an obvious lie, because in those countries the state and the people are completely in the hands of the Communist Party. Only party leaders (communist bosses) have the right to dispose of everything, to regulate wages, prices, working time a.s.o.. Nothing belongs to the people or to the state. All is completely in the hands of the Communist Party.

The workers were also deceived and betrayed in the same way. Before seizure of the power Lenin taught: "The factories, mines, and all means of production should belong to the workers but not to the capitalists".

After usurpation of the power the Communist Party took all factories, mines, and means of production in its hands and gave to the workers only limitless piece work, stakanov-methods, socialistic competition, shock brigades and collective responsibility. The last is an especially mean way of exploitation, because it converts every one in a spy on his coworkers. In invention of new methods of exploitation communist bosses are unsurpassable.

They destroyed the free trade unions and made it impossible for the workers to protect themselves.

Instead of free trade unions they organized "Communist Trade Unions" which are practically organs of a huge, monopolistic super capitalist. Consequently the Communist Trade Unions protect this monopolistic super capitalist but not the workers.

The result is that the buying power of wages in 1960 was under that of 1914, although the productivity of a worker because of the new machinery, automation, new production and assembly methods was 6-10 times greater as it was in 1914. That is not an exploitation but monstrous super exploitation of the workers. I guess it would be right to call it: exploitation-madness.

The brutal exploiter Krushchev said himself that the Russian worker has to wait a long time until he will drive his own automobile.

Krushchev uses the bread dependence of the entire population of the Soviet Union from the party not less brutal than Stalin used Secret Police.

In communist countries there is no socialism and no communism. There is a monstrous monopolistic super-capitalism of a brutal political party. In this way the monstrous super-capitalist has in his hands not only extraordinary economical power, but unlimited political power, too.

Dictatorship of such extent is unknown in the history.

The super-exploitation is inherent with the communism. Police states require too much money for the regimentation of the population. They have enormous large police force. Besides they have police armies (as Army of MVD in Soviet Union, destination of which is to fight the own people). Both bodies consist of professionals (not of drafted for a couple of years soldiers) and, consequently, they are paid as professionals. The cost is accordingly extremely high.

The spy or informer system, common to all communist states, is also very costly.

The communist states describe still more importance to the mental enslavement. The political courses, the management of press, radio, television, the propaganda materials and agents, jamming of foreign radio a.s.o. are utterly expensive.

44 years long the communist leaders, starting from Lenin, promised to subjugated countries highest living standard yet what said Krushchev about automobile for Russian workers?

The money, which they extort from the workers, is used not for the people but against the people: for their physical and mental enslavement. In those countries of limitless reaction there is no freedom of conscience, of word, of press. The election is a humiliating conversion of human beings into trained animals that are forced to do certain manipulations without any sense, besides pleasing their masters, because they can't elect anything.

The Constitution of the Soviet Union is especially remarkable with regard to lies. Basically it consists of enumeration of the communist lies.

1. The Constitution of the Soviet Union describes the USSR as a socialist state of workers and peasants. It declares that the "Soviet of Working Peoples Deputies" are the political foundation of the USSR.

The dirty trick here consists in the fact, that the list of candidates can be written only by Communist Party. The election is carried out under strict control of the same party and the votes are counted by the communists too. Who will be elected: those who protect the Communist Party or those who protect belied and betrayed workers and peasants? Every Soviet-Member knows that actually he was not elected but appointed by the party bosses and that he will be Soviet-Member only as long as he will stay agreeable to them. With other words not the party bosses depend on the Members of Soviets of Working People Deputies but in the contrary.

2. The Supreme Soviet of USSR consists of two chambers: The Soviet of the Union and the Soviet of Nationalities. The duty of

the last is to protect the different nationalities of the Soviet Union and care for equal rights.

In Life (July 5, 1954) and condensed in the Readers Digest (October 1954) was printed an article under the title "How the Kremlin Treats Its Own" which described how the entire population of the Chechen-Ingush Autonomous Soviet Republic was cruel and relentless banished from Caucasus to "the far regions of the Soviet Union".

Likewise the Kalmucks, the Karachevtsi, the Crimean Tatars and the Volga-Germans were subjected to the mass deportation.

What did the Soviet of Nationalities do for their protection? Absolutely nothing and it would be naïve to expect the protection. The Soviet of Nationalities practically is an organ of Communist Party. Its first duty is to protect the party and, consequently, to belie and to fool the nationalities exactly as the Communist Trade Unions belie and betray the workers.

3. The Constitution of the Soviet Union "gives right to withdraw from the Union to every state of the Union". The same constitution gives yet so much power to the central government that the secession is absolutely impossible.

Hungary didn't belong to the Soviet Union and was only in colonial dependence from her. When the Hungarian Communist Government of Imre Nagy declared itself "neutral", the country was brutally suppressed. As every action of Kremlin, the suppression of Hungary was accompanied by lies.

On Oct. 30, 1956 the Government of Soviet Union promised to withdraw its troops from Hungary and started to evacuate the Soviet Army, but already on November 1 it broke its word and new troops in wide front crossed the border streaming into Hungary.

On November 4 a Hungarian delegation, including General Pal Maleter, arrived, upon Russian invitation, in a small place Tokol for conference, where they all were arrested.

On Nov. 23 Imre Nagy and his friends left the Yugoslav Embassy. They had a written guarantee of safety signed by Kadar. As soon as they left the Embassy they were seized by Soviet MVD officers and latter many of them executed.

4. The Constitution of the USSR "guarantees" the Fundamental Rights of the Citizens".

In reality, the Soviet citizen is without any political and civil rights. Even the members of the Communist Party and the Party itself are only tools of the dictatorship of party bosses.

The communist colonisation of Western Europe and South-eastern Asia with brutal force might be shown clearly too. Here I refer once more to the article "How the Kremlin Treats Its Own". It describes vividly the methods of colonization of Lithuania. The same was done in Latvia and Estonia. *Doing so they cynically speak against colonisation.*

I guess, it might be also important to show how the Soviet Union and its satellites break their internationale agreements. For example, East-Germany has erected a wall between East and West Berlin, as though the agreement about Berlin provides for free traffic between both parts of the city.

Krushchev broke the atomic test ban although he had said, that the Soviet Union will never be the first who breaks the ban. A.s.o..

In this letter I give only basical idea of the book, how I see it, and show some exemples. You, Mr Hoover, know better than I these masters of deceit.

Such a book translated into different languages (first in Chinese) would be a mighty blow against communist deception.

I write this letter with the hope to help to fight deception, which brought suffering to uncounted millions of human beings and threatens the freedom of the entire noncommunist world.

Yours very truly

Dear _____:

I have received your letter of October 26. Your copy of "Masters of Deceit" has also arrived and, in response to your request, I have autographed it and am returning it under separate cover.

While your continuing interest in inviting me to speak in San Antonio is deeply appreciated, it is unlikely that I would be able to appear even if tentative arrangements were made at this time. Experience has shown that the uncertain nature of my official schedule, coupled with the numerous matters which arise daily requiring my personal attention, precludes my making plans of this type. I am sure you will agree that it would be most unfair for me to set a date and be unable to appear because of some unforeseen matter. I want to thank you for thinking of me in this connection, and I do hope you understand the difficulties involved.

Sincerely yours,
J. Edgar Hoover

Dear Mr. Hoover:

In reply to your letter of July 18, 1961, I am very pleased to inform you that I was finally able or rather successful in finding one of your books and I am sending it to you for the autograph you promised me.

In reply to your letter of July 28, 1961, in which I asked you here to speak at our auditorium, I did not send the check to you as payment for your service, although I would have been pleased to have done so. I sent the check to you to pay for your passage here and back and your hotel and food expense. Three hundred dollars would barely cover your expenses to here and return. I was very disappointed that you were unable to come at that time. We did have a very interesting meeting.

Now, Mr. Hoover, will you please set aside a time within the next six-months to come to our city to speak to us about Communism. I have always regarded you as the "Master" in the expose of Communism, and the directors in the San Antonio Restaurant Association join me in pleading for your appearance here. There will be no other speaker on the program. We will all be there to hear you and no one else, and you may speak as long as you like. The people here are hungry to hear from you the truth about how our governmental agencies are infiltrated by the Communists, and what they can do to lead this nation back to God and our freedoms.

I hesitated to write to you asking you to speak to us again, but there has been such an overwhelming deluge of requests to hear you that I can't put it off any longer. Please come to speak to us, I'm certain there will be nearly ten thousand people there to hear you.

May I hear from you soon?

With kindest regards,

I have just finished reading your book, "Masters of Deceit." It was most interesting, but, more than that--it was alarming. The average American, like myself, has no idea to what extent, these masters of deceit will go to further their ends.

Could this book be serialized, or condensed in our leading magazines? I have written to The Saturday Evening Post, The Ladies Home Journal, The Catholic Digest, and The Readers Digest, making this suggestion. I hope something can be worked out. Many Americans read magazines but never read a book.

According to this article, the Operation Alert project had sent 5,000 copies of the Director's book, "Masters of Deceit," to all the freshmen entering 24 South Carolina colleges and universities. It is noted correspondent underlined the name of the Director's book and also the fact that thousands of books are being given free to school libraries and students. It appears this is his reason for writing to the Bureau and indicating he would be happy to receive a copy of the book.

This is a syndicated column which also appeared in the New York Journal American on 11-4-61 and has been previously brought to the Bureau's attention. It has not been acknowledged. Operation Alert Is Latest Abuse Target of U.S. Reds

By JACK LOTTO

COMMUNISTS AND RATS HATE LIGHT. *Wis'*

Unlike the rats which hide in their holes until it is dark, the reds try to destroy any spotlight when it shines on them.

Their favorite weapon is a campaign of abuse and lies to confuse the public and win unthinking support.

Because they thrive when the public is uninformed about their tactics, the communists went to work on a project designed to bring a strong light on their conspiracy.

Their target was a project called Operation Alert. The aim of this pro-American operation is to get enlightening facts about the Kremlin-bossed communist conspiracy before as many Americans as possible.

THE BEST AND MOST authoritative work on the red plotting to turn this country into a communist dictatorship is being distributed by various anti-communist groups. It is the book, "Masters of Deceit," by J. Edgar Hoover, director of the Federal Bureau of Investigation.

Hoover, of course, is the No. 1 enemy of U.S. communist party members because they know he is their implacable foe and a leader in the campaign to educate the public about the red menace.

His book is a factual primer on the workings of the communist party and its many fronts.

Operation Alert, which the reds want to derail, has as its main purpose the distribution of the book to alert the public. In many instances, thousands of the books are being given free to school libraries and students.

HOOVER, HIS BOOK, Operation Alert sponsors, such as the American Legion, and the publishers, Holt, Rinehart and Winston, Inc., all were the targets of communist wrath.

Such favorite red epithets as "witch-hunting," "red-

ON YOUR GUARD

To help its readers remain on guard against propaganda, the Milwaukee Sentinel brings you an authoritative weekly roundup of pro-communist activities.

baiting" and "reactionary" were used by the party to describe the anti-communist actions.

"This book," raved the official party publication in its diatribe against Hoover, "is a slanderous attack on communists, progressives and liberals."

The book is a fully documented, factual presentation which nails down the lies and deceit of the communists and the pro-communists in agitation among the unemployed, Negroes, foreign-born, minority groups, labor, youth, and on issues such as nuclear testing, disarmament, Berlin, etc.

THEY PASSED THIS "LINE" along to their followers: Picture the entire Operation Alert as a scheme to make money in the name of anti-communism.

Said The Worker, mouthpiece of the communist party:

"A new method for making money out of authorship and book publishing has been squeezed out of the witch-hunting, red-baiting racket."

Among the sponsors of Operation Alert are the Legion, Veterans of Foreign Wars, business concerns, news media, and citizens' groups. The Myrtle Beach, S. C., Operation Alert sent over 5,000 copies of the Hoover book to all the freshmen entering 24 South Carolina colleges and universities. In Midland, Texas, a group of private citizens distributed copies to all the town's high school seniors.

It is these "candles" to light up the dark that the communists are attempting to snuff out.

If what you have written in your book "Masters of Deceit" is known to all people in our Government in Washington why do we continue the same pattern year after year???

Why do we not sever our friendly relations with the Communists, outlaw the communist party in U. S. and deport all known communists back to Russia, am sure this would wake a lot of them up. They really want what we have here, and am sure would be most unhappy to give up all and live in Russia.

The "masses" around this part of the country are beginning to think somewhere our Gov't, is must to "Soft," I for one hope this assumption is wrong.

I for one have read a lot on Marx, Engles, Lenin etc, and for the life of me cannot understand why more definite measures are not taken in Washington against such a thing as Communism whose Ideology must be known from President Kennedy on down thru Govt.

[Handwritten: CRIME RESEARCH]

My memorandum dated 9/7/61 captioned Frank Joris Donner, Author of "The Un-Americans," set forth information reflecting efforts of Captain H. E. Sorenson, U. S. Navy, Commander, Fleet Air Norfolk, Virginia, (a war college classmate of SA Kenneth W. Whittaker) to bar communist authored books from U. S. Navy Post Exchanges and to replace them with "Masters of Deceit." You will recall that after ordering this action to be done in his own command, Captain Sorenson further suggested similar action be adopted throughout the entire Navy by proposing same to the Cold War Advisory Panel, Washington, D. C.

SA Whittaker advises that he immediately instituted inquiry among his former war college classmates now stationed at the Pentagon and determined that Captain John C. Roberts, Jr., U. S. Navy, with whom he is well acquainted, was an alternate member of this panel and is in a position to exercise a great deal of influence in its decisions. Captain Roberts was contacted by SA Whittaker and his attention directed to Sorenson's pending suggestion. Captain Roberts advised that he felt the suggestion was outstanding and that he would do all in his power to see that it was adopted.

Captain Roberts, an attorney, served as Special Assistant to the Judge Advocate General of the Navy and now is in Office of Chief of Naval Operations where he is in a position of influence. SA Whittaker became well acquainted with Roberts while both served as students at the Naval War College. Whittaker states that Roberts is an outspoken admirer of the Director and on many occasions has praised the Bureau's work. Bureau indices fail to reflect any derogatory information concerning Roberts.

Captain Roberts contacted SA Whittaker on 11/1/61 and advised that the Cold War Advisory Panel had recently completed considering Captain Sorenson's proposal and had adopted it. Roberts stated that instructions would be issued immediately putting Captain Sorenson's suggestion into effect by replacing communist authored books with "Masters of Deceit" and other recognized authoritative works on communism. SA Whittaker advised Roberts of the possibility of the Navy obtaining the

hard-back copies of "Masters of Deceit" at a reduced rate for volume purchases from the Holt Company. Roberts stated he would be able to have the orders include this instruction. He explained, however, that the actual orders for the books will be made locally by each Naval Base according to its need and, therefore, he would have no knowledge of the number of books ordered as a result of his action. Captain Roberts, when being thanked for his assistance in this matter, was most cordial and appeared sincerely appreciative of the opportunity to help. He offered his further assistance in any matter which the Bureau desired.

SA Whittaker states that unless advised to the contrary, he plans to follow through with Captain Roberts in regard to the possibility of having the Navy adopt hard-back copies of "Masters of Deceit" as a textbook in their high school completion program and in their Naval Reserve Officers' Training Program in colleges throughout the country. It is felt that Roberts, in his position as an alternate member of the Cold War Advisory Panel, could be of great assistance in this effort.

RECOMMENDATIONS:

1. That SA Whittaker be permitted to continue his efforts through Captain Roberts to establish "Masters of Deceit" as a text in the various Navy training programs.

Dear Mr. Hoover,

I met you as a small child in Atlantic City and my Father, [redacted] of Washington, D.C., impressed upon me what a truly great man you were. Now that I am a grown woman, married and have a family of my own, I can see what a truly dedicated American you are. I thought the enclosed article was thorough and to the point, therefore I am taking it upon myself to mail one to every Senator with the hope that the point will be concurred with.

Of course, the entire Nation is up in arms over the prospect of war or slavery, but more important, our own Government is cowardly and letting us down. This is from the laymans point of view; unfortunately, we do not think that all of our elected officials are aware of this viewpoint.

Because we have admired you so much, we are appealing to you to use your influence as the Director of the Federal Bureau of Investigation to "awaken them".

More books written by you might reach

Nothing But the Worst

With characteristic brutality, Nikita Khrushchev has exploded the big bomb, the real thing this time, 50 megatons or more.

The surprising aspect of this performance is that it is not surprising at all. It is wise to expect the worst of Khrushchev and all other Communist leaders. Then you will not be surprised.

All the time we were negotiating with this vicious liar and murderer, all the three years we were conned, lulled and gulled into keeping our voluntary ban on nuclear testing, Khrushchev was building up his stockpiles, secretly testing underground, getting ready to poison the world's atmosphere with his skyhigh experiments.

We should have known it, and the real truth is that, down in our hearts, we did know it.

We knew, and we were warned repeatedly by military leaders, diplomatic and nuclear experts, that we were setting ourselves up for the big doublecross.

Khrushchev's diabolical act serves no scientific purpose. A bomb of 50 megatons is no achievement, but it is also no military weapon, for it is too big to be carried and guided accurately and too ponderous to be used for anything but terrorization.

Terror, of course, is the purpose of the Soviet Union, which is seeking to break the resistance of all who oppose it and all who do not agree with it 100 per cent.

We have military weapons which are in the course of development and need to be tested in the air. They do not encompass earth-shaking volumes of power and the consequent dirty fallout. We should go right ahead trying them.

And can't we now, once and for all, while there is still time, resolve never to believe anything but the worst from Russia's leaders.

Dear Mr. Hoover:

I am to conduct a meeting for the Parent - Teachers Association of our local elementary school at which the primary topic for discussion will be "The Influence of Communism in our Educational System". Of course, I hope this will be the begining of a study group on communism composed of members of my community.

I understand that you will furnish copies of several excellent reprints of your own writings in sufficient quantity to present a copy of each to every individual attending our meeting. I have read both - The Communist Menace: Red Goals and Christianity Ideals reprinted from "Christianity Today" and God and Country or Communism? reprinted from "The American Legion Magazine". I would appreciate copies of these two together with copies of any other reprints pertinent to the theme of our first meeting. We cannot accurately estimate the number of participants in the entire series. Our first session will probably be our largest. Our regular monthly meetings are attended by about 100 people. If there are copies of these reprints left over we will pass them on to other local civic and church groups for distribution at their meetings.

I would also appreciate single copies of any other material on Americanism or communism that might help me prepare myself for the chairmanship of these meetings.

Allow me to take this opportunity to express my own appreciation of your book "Masters of Deceit". It will be used as one of the textbooks for the series of seminars to be held.

Thank you very much for your interest and cooperation.

Yours very Truly,

Dear [redacted]

Your letter of October 10, 1961, has been forwarded to me, and I certainly do appreciate your interest in writing.

The communist concept of dialectical materialism, is, of course, a most complicated one. The glossary of "Masters of Deceit," page 344, does, however, set forth the essential points of this doctrine. We as Americans realize the fallacy in this theory which, as you indicated, insists that communism represents the final stage in the development of man. Nevertheless, dedicated communists have been so indoctrinated that they cling fanatically to this "scientific" outlook of the world. In reference to your inquiry concerning Joseph Stalin, he, of course, did impose a ruthless tyranny on the Russian people in the name of the dictatorship of the proletariat. However, any Soviet citizen who dared doubt Stalin's motives soon found himself the victim of his brutality.

In Chapter 6 of my book, I state that opportunists support the Communist Party in return for favors from it. Since these individuals are not actual Party members, they are not subject to the discipline of the Party as such. I do hope that these comments will help to clarify the points which you mentioned in your letter.

It is indeed encouraging to note the concern which young citizens such as you are displaying concerning the menace of communism. Only by informing ourselves of this threat to our American way of life can we effectively combat it. I am enclosing some material on the topic which may be of help to you.

Sincerely yours,

Attention: Mr. J. Edgar Hoover

Dear Mr. Hoover:

I have recently finished your book, Masters of Deceit, which I thought was most informative and very well-written. However, there are a few points which I would like you to clarify.

I should like to ask you to explain more fully what is meant by the term "dialectical materialism." As I understand it, it is the materialistic theory which states that communism is the final stage in the development of man, after which all change will stop. What I cannot understand is the fact that though many Communists see the fallacy of this theory, they chauvanistically cling to and strive to preserve it.

The life and death of Stalin I suppose is a mystery to many people. You stated in your book that Stalin had established a dictatorship "far beyond the dreams of any Czar." Would not the Russian people doubt the veracity of Stalin's preaching of "dictatorship of the proletariat."

Reading the chapter concerning American membership in the Communist Party, I seem to have come across an apparent contradiction. You stated that one group which enters the Communist Party is the one of the opportunist. These people undoubtedly enter the Party for personal gain, and yet they are subject to many inconveniences and must make many sacrifices for their evil cause. I should think that many of these people would be unwilling to make such sacrifices to a cause in which their futures are so uncertain.

I, as a young citizen of our country, would like to help in the fight against Communism. I would appreciate some specific ideas which might help my classmates and me combat our most deadly foe.

Respectfully,

At 4:20 p. m., today, [] telephoned the Bureau locally and spoke to Special Agent [] upon referral from the Director's Office.

[] advised that he had just finished reading the Director's book, "Masters of Deceit," and was enthralled with it. He said it is an outstanding book and frightened him a little but that it was reassuring to him to know that there was something that could be done by American citizens concerning communism. He said that he could not put the book down until he finished with it. [] described himself as just an ordinary citizen and indicated that he is a "GS-14" employed at the Naval Ordnance Laboratory. Mr. J. Edgar Hoover, Director
Federal Bureau of Identification
Department of Justice
Washington, DC

Dear Mr. Hoover:

This is to request permission to quote, with appropriate credit, nineteen words from the Foreword of your magnificent MASTERS OF DECEIT. The quotation, from your page vi, is: "...International communism will never rest until the whole world, including the United States, is under the hammer and sickle".

It is desired to use this quotation in a forthcoming book, explained below. The excerpt would appear by itself on a page ahead of the title page. It would serve as a sort of theme for the volume under reference. Furthermore, we are using the hammer-and-sickle as a design element in our book.

Not long ago, [redacted] for the past twelve years the West Coast investigator for the House Committee on Un-American Activities, noted that the copyright on William Z. Foster's TOWARD SOVIET AMERICA had expired. It seemed to [redacted] that this book should be available to anti-Communists. Direct inquiries revealed that the original publisher, Coward-McCann, did not plan to re-issue the book. Consequently, half a dozen patriotic business and professional men in and around Orange County, California, having obtained competent legal advice in the matter, decided to finance the non-profit re-publication of TOWARD SOVIET AMERICA for the purpose I have mentioned. This group subsequently organized as Elgin Publications, P.O. Box 162, Balboa Island, California.

I was asked to undertake the preparation and manufacture of an anti-Communist edition of the Foster book.

The coming edition of TOWARD SOVIET AMERICA will have a subtitle: "The book the Communists tried to destroy". This is based, of course, upon the efforts made by the CPUSA to do away with every possible copy of the book after its existence had become an embarrassment to the Communist conspiracy.

The foreword of the new edition, some sixteen pages in length, is by

Representative Francis E. Walter, Chairman of the House Committee on Un-American Activities. There will be explanatory notes preceding each of Foster's five chapters (I am honored to have written those notes). The 1932 Coward-McCann edition of the Foster book itself is being reproduced directly from the pages of that edition, by offset lithography. Every detail of the original will be retained, including even the page numerals of the first edition.

The physical publication is being done in the plant of Delta Lithograph Company, 14731 Califa Street, Van Nuys, California. This company has security clearance and does extensive publication work for defense plants in the Los Angeles area.

Mr. Wheeler, with the knowledge and consent of Chairman Walter, has remained in active touch with the re-publication of TOWARD SOVIET AMERICA.

As for myself, I was for six years (until July 1960, when I resigned to write a book about the Committee on Un-American Activities, to which I have been a sometime consultant) the Executive Director of the Motion Picture Alliance for the Preservation of American Ideals. I believe you are aware of that organization's long-continued work against subversive influences in Hollywood, both from Left and Right extremes. I feel sure the Los Angeles office of the Federal Bureau of Identification would have no difficulty in assuring you of my loyalty.

Meanwhile, the Elgin group interested itself deeply in the presentation of an anti-Communist "school", similar to the one conducted in Los Angeles a few weeks ago, at which Senator Thomas Dodd, Cleon Skousen, Herbert A. Philbrick, and Dr. Fred Schwarz were among the featured speakers. One of the moving spirits of the Elgin Publications group, Dr. William Brashears, is general chairman of the new "school", which is to be presented 11-15 December 1961 at the Shrine Auditorium here. The affair is being conducted under the over-all name, "Operation Alert". I believe Mr. Skousen is to be in charge of the anti-Communist educational program. Various well-known public figures (among them Representative Walter) will appear as speakers.

It is planned to introduce the anti-Communist edition of TOWARD SOVIET AMERICA at the Project Alert "school". I am, therefore, having to push the publication rather frantically: I would certainly have telegraphed our request for your permission to quote you, had it been possible to explain the pertinent details in a telegram.

We hope you will be willing to grant the permission we need, and that you will find it possible to communicate your decision to me at your earliest convenience.

Gratefully

By letter dated 11-3-61, above-captioned correspondent advised that West Coast investigator for the House Committee on Un-American Activities (HCUA) had noted that the copyright on William Z. Foster's "Toward Soviet America" had expired. The original publisher did not plan to re-issue this book. Consequently, a group of individuals in Orange County, California, organized under the name "Elgin Publications" for the purpose of preparing an anticommunist edition of this book. Correspondent had been asked to undertake preparation of the book, and requested permission to utilize a quotation in it from the Director's foreword in "Masters of Deceit." This quotation would appear in the book on a separate page ahead of the title. Correspondent noted that the foreword of this publication would be prepared by Representative Francis E. Walter.

Correspondent stated that he had formerly been connected with the HCUA, as well as with the Motion Picture Alliance for the Preservation of American Ideals. He went on to state that the Elgin group had also become interested in an anticommunist "school" and this was to be presented December 11-15, 1961, at the Shrine Auditorium in Los Angeles. It was being conducted under the name "Operation Alert" and W. Cleon Skousen as well as one Dr. William Brashears were going to be active in it. Correspondent continued by stating that it was their intent to introduce this book at the time this school was being conducted.

derogatory information regarding Dr. William Brashears and the Motion Picture Alliance for the Preservation of American Ideals. Our files contain no information regarding Elgin Publications. "Operation Alert" is the name given to activities of various groups of leading individuals in cities throughout the country who have organized study groups on communism. Each one is separate and independent of the other and we have furnished reprint material to members of the various groups. W. OBSERVATION:

It is believed inadvisable to comply with correspondent's request since the use of the Director's quotation in the manner he indicated might be construed as an endorsement of this book by Mr. Hoover.

RECOMMENDATION:

That the attached airtel be sent to Los Angeles instructing that office to contact correspondent, orally acknowledge his letter, advise him that the Director is most appreciative of his desire to utilize the quotation from "Masters of Deceit," but advising him that this permission cannot be extended in view of the possibility that the appearance of this quotation in his book could possibly be construed as an endorsement of it by the Director.

Dear Mr. Hoover,

I have this date, completed the reading of your book entitled, "Masters of Deceit," and in doing so, I feel compelled as an American, having a great love of our country and what it symbolizes to free men everywhere, to write these few lines in an attempt to express my profound, and heartfelt thanks to you & all the men of our government, who have devoted their lives to rendering long and faithful service, that we, as a nation might progress ever forward, to a more perfect way of life.

I'm no literary critic by any stretch to the imagination, but nonetheless, I feel confident in telling you Sir, that I believe your book to be an excellent expose of the everyday menace of the communist movement in the U. S. A., which could also be applied, to the world communist movement. Certainly Sir, he who knows this enemy is in a better position to defeat him and your book has contributed greatly to knowing our communist enemy and there methods of warfare. I shall recommend it's reading at every opportunity.

I'm sure Sir that you have received many thanks and words of congradgulation, for the writing of this book, from distinguished people throughout our country & the world. I am not a distinguished person in the common sense, but I most certainly extend my thanks and congradgulations, for a work well done and pray for your continued long and dedicated service to the American people, as the Director of the F. Dear [Redacted]:

I have received your letter of November 9 and want to thank you for your kind comments concerning my book, "Masters of Deceit." In response to your inquiries, I would like to point out that FBI files are maintained as confidential in accordance with a regulation of the Department of Justice. I hope that from this you will not infer either that we do or that we do not have information in our files relating to the subject of your letter.

By Presidential Directive of September 6, 1939, the FBI was designated as the civilian intelligence agency primarily responsible for protecting the Nation's internal security. I assure you that this Bureau is continuing to handle its jurisdictional duties in this field with the same dispatch and thoroughness that have characterized our investigations in the past.

With respect to your other question, I pointed out in my book that it is a continuing program of the Communist Party to attempt infiltration of every part of our society, including religion. Fortunately, this evil conspiracy has not made substantial penetration into our religious organizations. I would like to emphasize, however, that churches will continue to be important targets in the over-all subversive plans of endeavoring to control our established institutions, and we must remain alert to any attempts to replace our national traditions with the atheistic philosophy of communism.

Dear Mr Hoover,

Having just finished your very fine "Masters of Deceit," I wished to congratulate you for giving the people one the best books on Communism that I have ever read. I only wish there was some concrete way I could help defeat the spread of the disease, beyond raising my children to live for God and the United States of America.

I would like your opinion on several things which bother me along these lines. I have read that the F.B.I. has a list of every Communist in our country and can, at any time, "close in" and arrest them all. Is this true? how may I ask why we permit them to live here and enjoy the benefits of Capitalism? Were I the president for a day, and knew the communists, I would deport them forever.

Also, is the National Council of Churches infiltrated, and who are the communists, if so?

Very truly yours,

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington D.C.

Dear Mr. Hoover

I would like to thank you for the fine job you and your men are doing. I, for one, feel without the protection of the FBI., the Communist would be much further advanced than they are in this country. I would like also to thank you for the very fine Book, Masters of Deceit. This powerful book, has done a great deal, to open the eyes of the sleeping masses. I know when I finished reading it, I was down right MAD. I am still running along at a temperature of about 105. I have read other books, and many Senate reports, and feel that all I can do is not enough. I have a favor to ask, I would like to know if there is a list, that is available to me, that lists all known Communist front Organizations? Also I understand that you have written The Communist Party Line for the Senate. I would like to have a copy if possible.

Thank You Again

we did make some inquiry concerning it and individuals connected with it in 1956. There was no indication of Communist Party activities on the part of individuals connected with the organization. The NFO was organized in October, 1955, allegedly to obtain a fair share of the national income for the farmers. The Bureau has not investigated "Youth for Christ International, Inc., and no derogatory data concerning it appears in Bufiles. Its objectives are to encourage evangelism among the youth.

Mr. Hoover -

I wanted to write you and tell you how much I enjoyed reading your book "Masters of Deceit." It is a problem, this communism that is laying heavy on my heart. I have four children and I pray to our Lord, they won't have to live under this. I think your book is one way to help fight it. We must be informed of this red threat.

I was wondering if you could give me any information concerning this National Farmer's Organization. It is an organization for farmers, which is growing here in the Middle West. In your book it described different clubs and organizations the commies backed and we just wondered about this one. Some people have called it thus, but it is said to be for the farmers and has a good line of thought.

Another organization that has caused some controversy here in our county and different counties around is "Youth for Christ". We have heard good and bad on this group. But maybe I'm placing too much emphasis on it, but like I said I'm wanting to spare my children and their children slavery under dictatorship, if possible.

Thank you so much for hearing me ramble on, and again I say thank God for men like you, who are fighting the Red War. Thanks again for your book.

Sincerely yours

Worthy Project

AN EVENT of more than passing significance is taking place in Lubbock this week. It is the annual observance of Optimist International's Youth Appreciation Week.

Six Lubbock Optimist clubs are participating in the observance, which has grown from a fledgling one-club project into a continent-wide annual undertaking to turn protest into praise for youth. More than 1,600 clubs in the United States and Canada are involved.

Objectives of the project are highly commendatory. The aim is to accentuate the positive in dealing with American youth, which has come in for severe criticism during recent years. The Optimists point out that only an insignificant percentage of young people are engaged in criminal or otherwise questionable activities, yet these make headlines because their deeds represent the unusual rather than the usual. Not more than five per cent of U.S. youths — some say two or three per cent — can be classed as delinquents. Yet the spotlight has been placed on the small minority, with the result that the vast majority, who are so busy growing up to get into trouble, have received a minimum of attention. It is the purpose of the Optimist clubs, during this week, to emphasize the activities of youth in the home, school, church and community so that the public may become better acquainted with that law-abiding and intelligent young people are doing. An examination of these facts may surprise some who are not acquainted with the vast scope of activities in which modern youths engage.

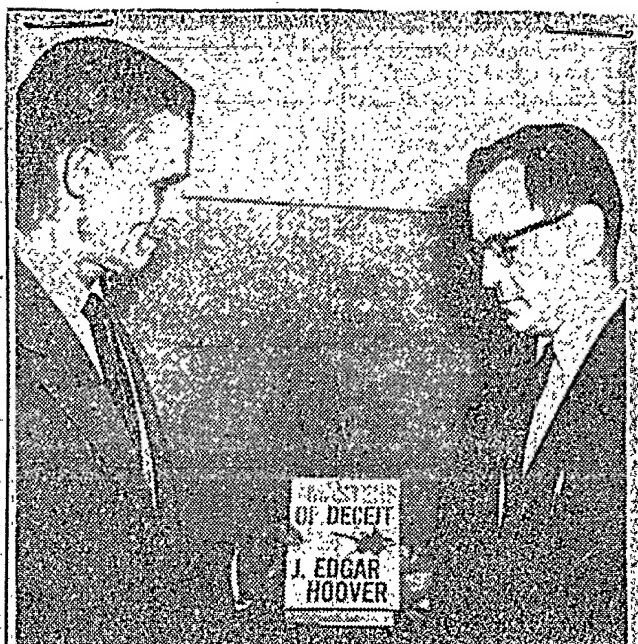

Locally, the Optimists are carrying out a most worthwhile project. Eighteen schools in the city and county have been presented copies of "Masters of Deceit," written by FBI Chief J. Edgar Hoover. In the book, Mr. Hoover describes the Communist conspiracy in the U.S. and warns of its threat to our form of government and our way of life. It is a splendid book to place in the hands of youngsters, who must grapple with this problem in the future. Now it can be obtained through the school libraries.

The Optimists this week are seeking to give "A Pat on the Back" to the worthy youth of America. They deserve it, and we believe will become better citizens because of this recognition given them.

City, County Schools Given Hoover Book

Eighteen schools in the city and county have been presented copies of "Masters of Deceit," written by FBI Chief J. Edgar Hoover, by the six Lubbock Optimist clubs in observance of National Youth Appreciation Week.

The books were formally presented to Jay Gordon, curriculum director of Lubbock Public Schools, Monday by Les Horner, Youth Appreciation Week chairman for the Inter-City Council of Optimist Clubs. The special observance continues through Sunday.

A copy of the book, which outlines subversive, communist activities in the United States, will go to each library of the 11 secondary schools in Lubbock, and to schools at Cooper, New Deal, Frenship, Roosevelt, Shallowater, Slaton and Idalou.

County School Supt. Roy Boyd will receive copies for distribution to the schools outside the city limits.

The presentation is part of Optimist International's basic "Friend of the Boy" program. The participating organizations here are Lubbock Optimist Club, Monterey Optimist Club, Southwest Lubbock Optimist Club, Midtown Optimist Club, Hillcrest Optimist Club and Mackenzie Optimist Club.

You may recall that was one of two young boys who won a contest sponsored by the "Dallas Times Herald" newspaper, Dallas, Texas. Both were scheduled to meet and be photographed with the Director on 6-15-61. was unable to arrive on time for his appointment with the Director and the Director's regrets were expressed. On 11-24-61 the office of Vice President Johnson telephonically advised that was in Washington together with his uncle, . It was requested that the Director meet the and the Director agreed to shake hands.

The Messrs. were introduced to the Director at 3:35 p. m., November 24, 1961, by SA of the Crime Records Division. In the course of a brief conversation, requested that the Director autograph personal copy of "Masters of Deceit." The Director agreed to do so. Immediately following their meeting with the Director, both expressed the greatest appreciation for the Director's having taken time from his most busy schedule to speak with them. stated that the Director's actions displayed his completely American approach to the people. He stated that in his opinion, a great man like the Director would never see ordinary people such as himself in another country. stated that he was so overawed to be in the presence of the Director that he found it difficult to speak. He stated it was one of the most impressive occasions of his life, and that he would cherish his autographed copy of "Masters of Deceit." He noted that it was a bit "dog-eared" but that it had become so from being "very well read."

Captioned individuals were conducted on a special tour of the Bureau's facilities following their meeting with the Director. Both constantly expressed amazement that criminals could seriously think they could escape so completely efficient an organization as the FBI.

Mr. J. Edgar Hoover
Director, Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

Attached you will find a copy of publicity going out to all newspapers, radio and television stations in the Bakersfield, California area.

I feel you will be interested in this civic project as it involves your book "Masters of Deceit". This project has cost our club less than \$45., but we feel it is far reaching in the wealth of understanding it will create in our community. We hope to reach a thousand people through this distribution of your book. You are greatly respected and, therefore, we are proud to do our bit in promoting the sale and distribution of your book.

I know you are very busy, but a letter of encouragement from you regarding this civic project would help us in creating the enthusiasm and dedication in our members which will be needed to keep these books moving. You will find the name of the president and the civic chairman on the attached sheet of publicity.

Aside from the club project, you may be also interested in what individuals are doing to combat communism and inform others of the danger. We have made it a point to ask for "Masters of Deceit" in every drug store and other stores where pocket books are sold. We recommend that your book be ordered and keep checking to see that it is made available to the public and commend the stores for their co-operation in providing this book to their customers.

You will be happy to know they sell quickly---our problem has been getting United News to supply the stores. We also run tapes, give and encourage patriotic speakers as well as loan good reading material on many subjects. As our small 12t, my husband and I have

Members of the Woman's Club, North of the River District are now receiving complimentary copies of J. Edgar Hoover's book, "Masters of Deceit". [redacted] civic chairman, has selected as her project for this year the purchase and distribution of this revealing and documented book by the Director of the F. B. I. [redacted] states, "I can think of no better civic project than to give each club member this opportunity to read and inform herself on the dangers of communism. I recommend the study of this book in every members' family and urge each member to participate in this civic project by personally passing on "Masters of Deceit" to at least three other families during the weeks to come. In this way our one-hundred books will become a chain of information and knowledge to others who may be uninformed on the growing menace of communism."

[redacted] president of the North of the River Woman's Club, reported that the executive board unanimously endorsed the civic project. "We have long endeavored to keep our members informed of the communist threat to our freedom through [redacted] International Affairs chairman, who has presented patriotic and anti-communist talks and tapes and by printing the logs of patriotic radio and television programs in our monthly bulletin. As club women and mothers, we feel we have a duty to our Country and our community to be intelligently informed and to dedicate ourselves to preserving our American Freedom."

Dear Mrs. Rathbun:

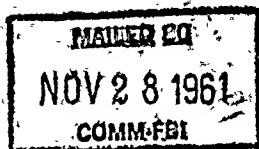

Your letter of November 15, with enclosure, was brought to my attention upon my return to Washington. I do want to thank you for your generous comments regarding my administration of this Bureau.

Communism is certainly the greatest single menace confronting the freedoms we all cherish, and it poses a problem which should be of vital concern to every American. It has always been my belief that a broad knowledge of the operations and objectives of the communist conspiracy is essential if we are to effectively resist its influence. This was the purpose of "Masters of Deceit," which was intended as a basic text on communism. The interest which you and the members of the North of the River Woman's Club have displayed in my book is most encouraging, and I appreciate your splendid efforts in this regard.

I am pleased to forward, under separate cover, a copy of "Masters of Deceit," which I have autographed to you.

Sincerely yours,

J. Edgar Hoover

Dear Mr. Hoover:

I read with interest your book, MASTERS OF DECEIT.
Consequent to the reading of your book I purchased and distributed approximately 100 copies.

Your book states that "the NAACP national leadership has vigorously denounced communist attempts at infiltration" and has provided effective counters to certain communist activities. It has been called to my attention that the NAACP had among its five founders a communist and that a considerable number of its high-level officials have been cited by the HUAC as subversive individuals. In my mind reconciliation of these facts is impossible. I would appreciate information which would put in proper perspective this seeming contradiction.

I hold your organization and your personal integrity in the highest regard.

Sincerely yours,

Dear sir,

I wish to secure all reliable printed material possible on unamerican activities and communist infiltration in the United States.

I wish to contribute my individual efforts and abilities to the fight against communist activity and wish to secure some guide as to how one can differentiate between the organizations which are reliable and sincere, and those which are using the rising tide of patriotism as a means of personal gain. My means for purchasing literature are very limited, and it is of financial necessity as well as expedient to a good conscience that I ascertain as correctly as possible the aims and intentions of an organized society before I contribute my own efforts or encourage others to do so.

After reading your very fine book, "Masters of Deceit," I realize the importance of being correctly informed, and of acting with wisdom upon that information once secured.

As a mother of three children I have been concerned for many years about the trends in our country that seem to be aimed at the destruction of the discipline and dignity of the family and home.

A reply will be appreciated very much indeed, and any suggestions as to how we, as everyday concerned Americans who sincerely love our country, may best aid the battle against communism.

Sir:

A group of business men in this area have been supplying the local banks with copies of your book "Masters of Deceit" (paperback edition), so that they might be available to bank customers. The response has been very gratifying - so much so that it has been difficult to keep a sufficient supply of books on hand.

We have just recently been notified by the local distributor of these paperback editions of "Masters of Deceit" that he has been informed that it is now out of print and he will no longer be able to supply our needs.

It would be greatly appreciated if you could inform us if this information is correct, and whether or not we may be able to purchase a supply from another source. We urgently need more copies, and could use perhaps two hundred to three hundred. It is our sincere belief that the book "Masters of Deceit" is the most informative literature citizens of our United States can read with regard to the communist conspiracy.

Thank you.

Dear Mr. Hoover,

I have recently read your book "Masters of Deceit" in which you set forth your views on world communism.

I found that your account of communist activity poorly and childishly presented. I cannot believe that such poorly written material is designed to appeal to intelligent minds. Even if what you have to say is 100% true, which I doubt, your manner of saying it makes it seem untrue, and downright ludicrous.

In addition, your book makes no valid case for America. In your rampage to denounce the Reds, you have overlooked mentioning the best qualities of our system. Thus, the entire effect of the book is negative.

Your book is, in my opinion, a very poor weapon with which to stock America's arsenal.

Sincerely yours,

By letter postmarked 11-27-61, the captioned individual advised that he had recently read the Director's book, "Masters of Deceit." He states that he found the book "poorly and childishy presented," and he cannot believe that "such poorly written material is designed to appeal to intelligent minds." He continues in this vein stating that the Director's book makes no valid case for America and "in your rampage to denounce the Reds, you have overlooked mentioning the best qualities of our system."

INFORMATION IN BUFILES:b6
b7C

The only reference that could be located that is possibly identical with is a of Pittsburgh, Pennsylvania, who was one of a number of subjects of a Federal Housing Administration Matters investigation conducted by this Bureau from 1954 through 1958. The case concerned the selling of home improvement contracts for the replacement of siding on houses. The scheme was to let the homeowner believe that his home would be used as a model in an advertising scheme and for each home sold as a result of displaying his home, he would receive \$50. was one of the salesmen involved and when the matter came before the Federal Grand Jury at Toledo, Ohio, on 7/14-16/58, pleaded the Fifth Amendment along with another salesman. On 9-11-58, Assistant U. S. Attorney at Toledo advised that the Department of Justice concurred with his opinion that the matter should be closed without further presentation to the Grand Jury. The problem was due to the inability of the homeowners to make definite identifications of the salesmen, and it was felt that the case could not be successfully presented for trial.

It is obvious from this "character's" incoming letter that nothing would be accomplished in acknowledging his comments. His reason for this letter undoubtedly stems from the aforementioned case in which he was involved.

My dear Mr. Hoover:

I am writing with regard to your book, "Masters of Deceit."

Is it out of print or restricted in sales or simply in such great demand?

I am wanting to get at least thirty copies to give at Christmas to a senior high school class that I am teaching in our Presbyterian church. I wanted the paper edition which I had hoped I might get at a reduction from the regular fifty cents price.

However, I am not able to buy them at any price. After writing to a firm in Oakland and to another bookstore in Berkeley I was told that they simply did not have them.

I inquired in a neighboring town and the manager told me that he had ordered some two weeks before but could get no reply concerning them.

If you have any suggestions that will help, I shall be grateful, for I feel that yours is a book which will be very helpful to this age students.

Masters of Deceit
Dear Mr. Hoover,

Thank you very much for your answer of Nov. 3, 1961 and the enclosed material, which I had read with great interest. It showed me once more, as did your book "Masters of Deceit", that the anti-communism propaganda and the protective measures against communism in U.A.S. are very good.

Sorry to say, I cannot have the same opinion about anti-communism propaganda abroad. The work of U.S. Information Agencies seems to be insufficient. So called uncommitted countries, as a rule, support the Soviet Union but not the U.S.A., as though they get much more financial and technical help from U.S.A.. Besides nobody but the U.S.A. protect their very independence from the imperialism of the Communist Block.

Something should be wrong with the work of the Information Agencies. That is, why such book as "Masters of Deceit in Kremlin" would be of great importance. Very pity that your time does not allow you to write it.

May be the Agencies overlook the fact, that in such ideological struggle it is not enough to fight only for the mind of the people. The feeling, or the soul, should be won too.

To gain the soul, the communists use together propaganda-movies, radio, television, music and songs. The latter are especially effective, because by songs they can start to influence the feelings of even the small school children.

To show clearly what I mean by example, I should like to mention a song in the Soviet Union which they sing in schools and which is well known surely to every person in the Soviet Union. It starts with the words: "I don't know any other country" (i.e. except Soviet Union) "where man is living so free". a.s.o.

The song makes a deep impression on the misinformed, sensitive youth.

Why not to introduce, at least outside of the Soviet Union, a song which more complies with the truth and which may sound, for example, as follows:

Communism.

Fog and dark clouds obscured the sunlight.
Part of the World is in gloom and in need;
Through rule of communism, workers lost their right
Of selfprotection against party greed.
Workers trade unions, party destroyed
As soon as power was sure in hands,
And on their place partys servants deployed,
To put the workers into partys bands.

The exploitation, that it introduced,
Is by far worse than mankind ever knew.
Freedom of people inhuman reduced,
Placed the power in hands of a few.

Communist party strews lies and deception
Over by party suppressed domains;
Freedom of conscience, of word, of election,
All is annulled where party reigns

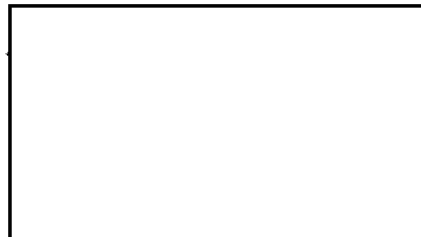

The song is written for a certain melody, but without the help of a piano (which I don't possess) I cannot write the notes. Consequently it misses the main thing: The effect of a song. The sense of the song is yet clear and it should be only an example what, in my opinion, could be done to gain the soul of the people.

By the way, to write a song in English is for me a very difficult task. In Russian or in German, I guess, it would be much easier.

It is very, very pity that you cannot write the book. It could be only a pamphlet, but written with your ability and supported by the authority of your name. Such pamphlets should be sent to all U.S. Information Agencies.

I realize that the Communist Party, USA, receives its orders directly from Moscow. Therefore it represents a danger and the protective measures against it are completely justified. What seems to me necessary, is an additional blow against communism in general or, more specifically, against communism in Kremlin, from where the orders come - i.e. to discredit the communism as such.

Yours very truly

By letter to the Director dated 11-26-61, above-captioned correspondent expressed regret that the Director would be unable to write a book concerning the dangers of international communism. He suggested that a song be introduced as part of the program to battle communism and he included a verse which he had apparently written.

Bufiles reflect that correspondent wrote to the Director on 10-30-61 suggesting that the Director prepare a book on the dangers of international communism. He stated he knew the German and Russian languages and offered his assistance to the Director. He went into a lengthy discussion of the historical and philosophical background of the world-wide communist movement as he felt it should be used in the book he proposed. He also suggested that the book should be translated into several languages. Our outgoing to him of 11-3-61 informed him that the Director's heavy schedule precluded him from undertaking such a project and correspondent was furnished communist reprint material. Bufiles contain no other information concerning him.

RECOMMENDATION:

In view of the nature of correspondent's letter and in order not to encourage further correspondence of this type from him, it is recommended that the attached in-absence response be sent to him and that no further acknowledgment be afforded.

Dear [redacted]:

Your letter dated December 1, 1961, has been received.

It is always encouraging to hear from citizens who demonstrate an awareness of the evils of communism and who desire to develop an accurate picture of this threat to our freedoms. I am enclosing material currently available for general distribution by the FBI, and I hope that it will offer you suggestions as to how you can best help protect our American way of life.

Dear Sir:

During the past six months I have noticed and ever growing concern by some authors and writers of the communist threat that exist here in the United States. Some naturally show more concern than others do regarding the apparent decay that has worked its way into this great country of ours.

The purpose of this letter is to learn of sources that I may obtain information from whos material is as near truthful as possible. I need some place to begin to learn of what is really going on within the country.

Thank you very much for your time and attention in this matter.

Dear [redacted]:

Your letter dated November 30, 1961, has been received, and it was encouraging to learn of your interest in helping to fight the communist menace.

It is my firm belief that knowledge of the true aims and methods of this atheistic philosophy is the best weapon for defeating it. Knowing about communism will permit one to recognize it wherever it appears. A lack of understanding is dangerous since it often is responsible for the indiscriminate labeling as communists those who merely advocate unpopular and unorthodox views.

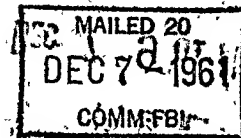

My book, "Masters of Deceit," was written with the hope that it would help Americans gain insight into the real nature of communist activities in the United States. This book should be available to you at your local library or bookstores.

Enclosed is some literature which may be of interest.

Sincerely yours,

Dear Sir:

I am writing to you in the hopes that you can send me some literature on Communism. It seems that we are to fight this dreadful disease, that would like to take over our country, but there doesn't seem to be anything tangible that we can hold on to. I am an American and I am very proud of it and I don't want some parasite coming in and taking over if there is any way that I, and people like me, can do to prevent it. I am a Mother and a Grandmother and I want my children and grandchildren to grow up as I did, in a free land. To go to the church of their choice and to speak out as they see fit. So, if your office has any literature that will be of help to me and my friends, please send them to me, and I will be very, very grateful to you. I have heard that your department does have some pamphlets but I didn't know of any other place to locate them.

Thanking you in advance,

I remain,

You should keep the Bureau advised as to what title Editore Sugar selects for the Italian translation of captioned book. Also in connection with this matter, your attention is directed to my letter to you of 9-30-60 advising that the Bureau desires to approve any illustrative material in the book. You should make certain that any art work used in the book and on the dust cover is in good taste.

NOTE: By letter 10-20-61 Legat, Rome, advised the Bureau that they would prefer using a title other than the Italian translation of "Masters of Deceit" for their edition of the book. By letter 11-1-61 we advised them that Bureau prefers the exact title be used. We have now received a letter from Legat, Rome, advising that Editore Sugar is insistent that the direct Italian translation of the exact title not be used inasmuch as they feel that this title would have absolutely no appeal in Italy. It is noted that they will use the Director's photo on the cover and on the flyleaf cover of the book. Editore Sugar has previously obtained permission of the Bureau, as well as Holt, Rinehart and Winston, Inc., to translate "Masters of Deceit" into Italian. We advised Legat, Rome, on 9-30-60 that the Bureau desired to approve illustrative material in "Masters of Deceit," inasmuch as this publisher's translation of "The FB Story" featured a dust cover portraying a Negro lying in an automobile with bullet holes in the window of the car. We, of course, do not want this type of sensational cover used for "Masters of Deceit," and are accordingly reminding Legat, Rome of previous instructions regarding illustrative material.

From: Legat, Rome (94-2) (RUC)
Subject: *0* "MASTERS OF DECEIT"

ReRomelet 10/20/61 and Bulet 11/3/61.

On 11/13/61 Dr. Massimo ~~Pini~~, Editore Sugar, Milan, Italy, advised that his staff now believes the Italian title for "Masters of Deceit" should not be "I Sovversivi" (The Subversives). Dr. Pini related he and members of his staff are particularly anxious to make "Masters of Deceit" an outstanding seller in Italy, and in order to do this it is necessary to give the book an appealing and fitting Italian title. He stated members of his staff are further discussing this matter and plan to come up with several possible Italian titles which should assure as reasonably as possible a large sale of the book in Italy.

Dr. Pini was reminded that Spanish translation of the book had carried the exact title "Masters of Deceit" and that the book had excellent sales results in Spanish-speaking countries. He was also told that the Italian translation of "Masters of Deceit" is preferable. Dr. Pini stated that translated into Italian, "Masters of Deceit" would be "Maestri dell'Inganno," and that this title would have absolutely no appeal to the Italian people, and as a result sales of the book would suffer tremendously. Dr. Pini was insistent that the direct Italian translation not be used. He added that by virtue of his professional experience and in publishing a number of foreign language books in Italian, he is certain the title "Maestri dell'Inganno" would be wrong in Italy.

Dr. Pini exhibited contract made with Holt, Rinehart Company, 383 Madison Avenue, New York City, on 4/14/61. The contract was made between Dr. Pini and Mr. William J. Tribe, Vice President and Secretary of Holt, Rinehart Company. It was noted in Section 7 of the contract that the publishers "undertake that the name of the author shall appear in its customary form in due prominence in the title page and on the binding of

Dr. Pini added that the book will now be ready for printing during February or early March, 1962. ² 62?

Dr. Pini was furnished the Director's photograph and biographical sketch. Dr. Pini stated he wished to place the Director's photograph on the cover as well as the fly-leaf cover of the book; and that he would use the Director's biography as a preface in the book, together with a short summation of the history of the FBI.

Dear [Redacted]:

Your letter dated December 1, 1961, with an attached newspaper clipping, has been received.

I want to thank you for your gracious remarks about my book, "Masters of Deceit." This book is not out of print and is normally available at local book stores. Since it has not been possible to find it in your area, the publisher has been advised. If copies are not in your bookstores in the near future, you may want to order it from Holt, Rinehart and Winston, Inc., 383 Madison Avenue, New York 17, New York. The price is five dollars per copy.

In connection with your desire to help fight the communist menace, I have advised citizens to educate themselves concerning the true nature of this subversive philosophy. Knowledge of communism will help one to recognize it wherever it appears and will help to avoid the indiscriminate labeling as communists, those who merely dissent or advocate unpopular and unorthodox views. This is no time for vigilante action or activity outside the law.

I want to assure you that Americans can be of great aid to their country by reporting information of a subversive or criminal nature, within our jurisdiction, to the FBI. If you should have such data in the future, do not hesitate to contact the representatives of our office located at 510 The Trust Company Building, New Haven 10, Connecticut.

Whenever possible, this Bureau does provide speakers who talk on the subject of communism. However, I regret that the pressure of official business and previously scheduled commitments will not permit me to designate a representative for your area or to offer you any encouragement in this regard for any time in the near future.

Sincerely yours,

J. Edgar Hoover

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
Washington, D.C.

Dear Mr. Hoover:

Thank you for your letter of November ninth, and the literature which I requested.

Your book "Masters of Deceit" is excellent, giving a sensible approach on positive action concerning the communist problem. During Education Week I wrote a letter to the editor of our local newspaper recommending "Masters of Deceit" to our townspeople:

Education Week

Editor, Shore Line Times:

American Education Week is traditionally a time for parents to visit their children's classrooms to discuss educational achievements and activities.

A.E.W. also should be a week for education in Americanism. All responsible Americans should make themselves aware of the greatest threat now facing our American educational system.

F.B.I. Director J. Edgar Hoover's book, "Masters of Deceit", and the booklet "Accent on Youth", should be "musts" on the reading list of all educated Americans. Within their pages are listed positive ways in which we can share in the responsibility of preserving our precious liberties. Among these are a return to patriotism, love of God, and the election of school and government officials dedicated in their efforts to keep our country free.

Rachel H. Kurt
(Mrs. F. James)

The copy which I read was from our local library. Although I have had a copy on order at a local bookstore since Nov. 3, nowhere have I been able to purchase a copy. Other J. C.s have tried 11 stores in area towns with no success. Is your book now out of print? How can we obtain copies?

Much concern has arisen as the result of Warden and Harold Moshers' speech, and "Communism on the Map". I have come to the conclusion, finally, that if his purpose in speaking was to initiate positive action in the fight against Communism and to jar out of complacency a large group of apathetic Americana, then his purpose was accomplished.

Some JayGees have already taken positive action. One member (a Lieut. Commander in a New Haven Naval Reserve Unit and President of the elementary P.T.A.) talked with the Guilford Superintendent of Schools about the school board's method of screening of teachers. He talked with the school librarian

and learned that "Masters of Deceit" is being used in a high school history class, but that several more copies were needed. The J.C. Wives last night voted to purchase three copies, if we can get delivery.

Two other JayGees were instrumental in stopping a regional forum in their home town of North Haven where Frank Donner was to speak to a high school students on Communism. These JayGees contacted the Superintendent of the North Haven school system, high school principal, President of P.T.A. and Rotary President, most of whom agreed that a card-carrying communist should not be allowed to speak to the regional high school forum members. He did not.

REC-5

DEC 8 1961

EX-113

CORRESPONDENCE

Most JayGees and Wives wish to take positive action in "backing the attack on Communism", desiring to make this a local project after January 1st, hoping to make it a state J.C. project and eventually a national project. Everyone has his own idea on how to start. Some wish to have rallies against communism, and talk of asking General Walker to speak at a J.C. state convention.

(ridding ourselves of the Communist threat)

The general idea is good. I feel that we lack direction. (Would we be able to aid the F.B.I. in wiping out Communism in New Haven county, or would we be interfering in work already begun by the New Haven office?)

The Guilford JayGees are an organized group of responsible citizens with representation in all phases of local activity including government, education (both public school and religious), recreation, etc. Their purpose is "community betterment". Do you feel that we should remain responsible "individual" citizens, or do you feel that as a group (neither extreme right nor left) that we could function more realistically and effectively? Is there someone whom you could recommend to speak to us in order that we may logically and without hysteria, achieve our goal?

We hope sincerely that the Supreme Court will uphold the ruling requiring card-carrying Communists to register.

Yours very truly,

Dear Mr. Hoover:

It was indeed a pleasure to receive a copy of your brilliant "Masters of Deceit" delivered to me by [redacted] of your Seattle office. While I have only had the opportunity to glance through several chapters, I am looking forward with interest to read it. I am sure it contains many authoritative and timely analyses on the activities of insidious communism which will awaken Americans to its cancerous dangers. I shall treasure having "Masters of Deceit" and appreciate very much your thoughtfulness in autographing it personally.

I have always admired the wonderfully patriotic stand you have taken in exposing and fighting the treachery of communism. I am sure your book will provide guidance to many who are in doubt, perhaps naively, concerning the existence of this threat to America.

May I wish you every continued success in this vitally important work you are doing and, as an American, thank you for your devoted service to our nation. I again express my appreciation for your thoughtfulness in presenting me with this best-seller.

It is noted that the NBC network program, "The World of Billy Graham," which was televised nationally on the night of 11/29/61, prominently displayed "Masters of Deceit" when the cameras focused on a few select books in the home library of the Very Reverend Mr. Graham. The title of "Masters of Deceit" stood out in that particular camera sequence.

Am I suppose to argue with them (they are so fanatic--is there any use to argue?) I work in the Indianapolis - Marion County Metropolitan Planning Department. There are two employes--one [redacted] stenographer and my immediate boss, [redacted] office administrator of the MPD also Marion County key-man for population census, etc. They speak some things everyday that are argumentive and some almost as tho they had read your book and were quoting the communist line you printed. [redacted] is always telling of things he did while in the employ of the F. B. I. The first I paid any attention was when they discussed the Red or be Dead issue and I told them they were crazy and we argued--good naturedly (for the first and last time--so far. I just think they are doing it to appear Smart and well educated in the topics of the day--but if they aren't-- Should I argue or ignore their sallies? They never speak up before anyone else or maybe they do-- (but not to the group)

DATE: 12/13/61

FROM : MR. J. F. MALONE

SUBJECT: "MASTERS OF DECEIT"

You will recall that [redacted] Proprietor, Ten Penn Restaurant, purchased 500 copies of "Masters of Deceit" for distribution and use as a text in certain catholic schools in the Washington, D. C., area. SA Whittaker advises that all arrangements are now complete and that the books have been delivered to the schools.

[redacted] action has been very well received. The official presentation of 160 copies to Brother Justin at Our Lady of Good Counsel High School, Wheaton, Maryland, and the 240 copies to Monsignor J. Spence, Director, Catholic Office of Education, Archdiocese of Washington, D. C., for distribution to 120 catholic schools in the Washington area received press coverage in "The Evening Star" and the "Catholic Standard" (local catholic weekly newspaper). The latter paper is preparing a feature article for its 12/15/61 issue complete with photographs of the presentation ceremonies at Our Lady of Good Counsel High School and a story on initiating of the course on communism at that school with the "Masters of Deceit" as a text.

SA Whittaker advises that at the request of Brother Justin arrangements were made with Mr. DeLoach's office to have a speaker address the senior class briefly on "Masters of Deceit" and to outline the book for the Brothers who have been designated to teach the course. SA Fern Stukenbroeker handled both these talks on 12/12/61. Brother Justin was most outspoken in his praise of SA Stukenbroeker's address and advised SA Whittaker on 12/13/61 that the students and teachers who were briefed by Stukenbroeker are most enthusiastic to get into this study.

SA Whittaker states that this course is being considered as a pilot course in that numerous other catholic high schools and colleges in the D. C. area are observing its progress with interest and a view to using "Masters of Deceit" for courses in their own schools. He states that SA Stukenbroeker's contribution in outlining the course for the teachers was invaluable in that it served to get the use of "Masters of Deceit" as a text off to a fine start. He states that at the conclusion of SA Stukenbroeker's remarks he heard numerous favorable comments.

Dear [redacted]:

Your letter of December 7 has been received, and it was certainly good of you to write. I deeply appreciate your very kind remarks concerning my administration of the FBI and my book, "Masters of Deceit." My associates and I sincerely hope our future endeavors will merit your continued approval.

It is always reassuring to hear from citizens who demonstrate an awareness of the evils of communism and who desire to combat this threat to our freedoms. In response to your request, it is a pleasure to give you my views regarding the importance of education in the fight against communism.

Education is of strategic importance in the struggle raging between communism and the free world. It is from the atmosphere of creative thought, scholarly analysis and constructive dissent that the answer to communism will emerge. It is imperative that students direct their attention to effective solutions to those human problems which divide us and invite communist exploitation. The young men and women who mature with strong minds, courageous hearts and ready hands will share the opportunity to defeat this conspiracy with the weapon it fears most--truth.

I urge all students to strive to develop sound judgment through thorough study of the true nature of communism. Lack of full knowledge is dangerous in that it is responsible for the reprehensible and indiscriminate labeling as communists those who merely dissent or advocate unpopular or unorthodox views. Students should not hesitate, however, when fully cognizant that communist influence threatens, to voice their convictions with courage.

Sincerely yours,

J. Edgar Hoover

~~31 EXP. PROC.~~

Dear Mr. Hoover:

DEC 11 1961

Last September a small group of us (four Lutheran families) started an anti-communism study group, using material recommended by the Christian Anti-Communism Crusade. There is now an anti-anti-communism study group in town which claims that we are using wrong material, and that there is no internal threat of communism in America. They are quoting your bulletin No. 59 as proving that we are doing exactly what the communists want us to do - creating confusion etc. "If we can't believe J. Edgar Hoover, who can we believe?" If we had never shown the film "Operation Abolition", we would never have started all this confusion about communism, etc.

After giving a talk to a group of Horizon girls, based on Philbrick's record "Cybernetic Warfare", one of the girls suggested that I give a talk to all the H.S. girls about communism. A few mothers who opposed the film and tried to keep all the girls from seeing it, called the school and stated that they did not want the girls exposed to the subject. However the school board has given me permission to speak.

In view of the past events and the interpretation of your bulletin, I wondered if it wouldn't be more convincing to the girls if I had a direct quotation from you to give to them. I realize that you are very busy and I do hope it isn't too presumptuous of me to even ask. There are 150 girls in the H.S. and some of the Seniors will probably be entering "liberal" colleges. I thought that a message from you might stimulate them to think and read before they finish high school. Would a talk based on our wonderful heritage and the danger that we might lose it and what they could do to prevent that, be about what I should say? I don't want to do anything that would hurt the anti-communism interest in our little town of 3,000. People seem to be getting more aware of the danger and are beginning to do some reading. Your book "Master's of Deceit" is being well received, and discussed, and recommended to friends.

We are indeed very grateful for the wonderful work you and your department are doing. We rest much easier at night, DEC 20 1961 that the FBI is on the job.

Dear Brother Hoover:

Some time ago I read your fine book, "Masters of Deceit". It is tremendous, timely, and enlightening and you are most certainly due top commendation for a job well done.

Many of us have been cognizant of this cancerous growth for a long time, but the old statement and feeling, "What to do about it", was an unsolved problem. Your book has put the spotlight into their darkness. We have taken your sound advice. A group of men and women has formed here for the purpose of studying all we can about the dregs of communism. To be ignorant of their rotten aim is a sin -- a sin of omission.

One of our local radio stations, KXLL, has been broadcasting a program entitled, "KNOW YOUR ENEMY". It has had much favorable comment but unfortunately others have written this station some uncomplimentary letters and have plagued them with nasty phone calls.

In keeping with your great work and this station's willingness to cooperate I have a specific request to make of you. May we tape your book chapter by chapter and have KXLL play these tapes over the air? It is my belief that this will do more good to awaken and arouse some of our good local sleepy people than anything else. It would be a distinct privilege to tape the very first one myself. As chairman of The Americanism Committee, for our Scottish Rite Bodies, this is right up our alley.

I had our Secretary of the Rite get a dozen copies of your book for our own committee members and others to study. However; as you well know, these good men are but few in numbers and we must get this light of yours before our whole public -- particularly this University crowd here.

At present I am working on a huge plan to present to my own Standard Oil Board of Directors for their approval and acceptance. This plan is to have them sponsor a nation-wide anti-communism TV program similar to the one from the Hollywood Bowl recently, but with improvements. One of the most important of these would be to have you wind up the show IF they will go ahead and do it, and if you can and will accept. There are a lot of ifs, but in my opinion they are worth fighting for in the only sane way we can. Your reaction to this will definitely be appreciated, and your approval will be more than welcome.

Dear Brother [Redacted]:

Thank you for your kind letter of November 30, 1961. Your favorable comments concerning my book, "Masters of Deceit," and the work of this Bureau in fighting the communist menace are most encouraging.

For your information, reviews of my book and discussions of it on a chapter-by-chapter basis have been presented by radio stations in other sections of the country. I would have no objection if you desire to prepare a similar program for presentation over KXLL provided such a program would be offered as a public service and not be affiliated with any commercial venture or other "anticommunist" presentation. I would suggest, however, that before you proceed with any plans along this line you might like to obtain approval from the publishers of "Masters of Deceit," Holt, Rinehart and Winston, Incorporated, 383 Madison Avenue, New York 17, New York.

Your proposal to initiate, through the Board of Directors of your company, a nationwide anticommunism television program has been noted. I am pleased that you would think of me in connection with such a program. Unfortunately, the great many official commitments which I must necessarily assume in view of my position as Director of the FBI would prevent me from participating in such a program. I trust that you will understand my position in this matter.

In the event I can be of any further assistance to you, do not hesitate to contact either me directly or the Special Agent in Charge of the Butte, Montana, Office of the FBI. E. D. I.

Fraternally yours,

J. Edgar Hoover

Dear Mr. Hoover,

You may recall the undersigned from a letter by me to your Mr. Carla DeLoach, which was referred to you. This was several months ago. In my letter to Mr. DeLoach I suggested that a movie of your book Masters of Deceit might be a very useful tool in our fight against communism - anyway your answer was non-committal, which I feel was due to modesty on your part, as well as to your position ... anyway I talked with Mr. Ronald Reagan, who as you know is an outspoken and active conservative. He thinks that this would be a wonderful thing to do. I then mentioned getting together with Mr. John Wayne, after I contacted you, & with your permission to delve into the possibility further.

If this were properly done it would be on the order of an eight or nine million dollar project & take about a year to do (we would donate our services). I think that I could raise about 25% of this amount by donation through the physicians & dentists of our country. I feel that Mr. Reagan & possibly Mr. Wayne would be able to do even more. Another real boost could come from Ex-President Hoover in the form of public encouragement. Most conservatives feel that he is really with us, just as we feel you are -- If this should come to pass, I do not think that certain powers would dare to take the chance of barring this movie to our Armed Forces, schools, etc.

// Please let me know unofficially what you think of this plan - by telephone if you wish, for your privacy will be respected.

Best wishes for The Holiday Season

Dear Mr. Hoover;

I am writing you as a loyal American citizen. I have just finished reading your book-"Masters of Deceit." I want to thank you very much for taking the time to write it. I have previously read Skousens' "Naked Communist," and have watched the "Anti-Communism Crusade's on television. I think I am finally becoming aware of this communist menace. It seems that quite a few other citizens in this area are becoming aware of it also. There seems to be a wave of Anti-Communist patriotism sweeping the Los Angeles area. I hope this is happening in other parts of our country.

I have been following, in the newspapers, the action of the law to make the communists party and members register. I feel that you, as head of the F.B.I., can do the people of the U.S. a great service by using all of your power to influence and help the men who will prosecute these communists. Don't let it die, follow it through to the end, do what the law states, imprisonment and fine. Its a good start.

Thanks again for the book.

Dear Mr. Hoover:-

I have just finished reading your excellent book "Masters of Deceit" and want to congratulate you on this monumental exposure.

I would like to find out whether you could recommend a readable book on communism in Canada written by a Canadian author? Your book has tremendous impact here, but I feel that a reference to the Canadian scene would be even more forceful to a country that has been brainwashed into thinking that the real enemy is the Pentagon military staff!

Thank you again for your wonderful work and excellent book.

Mr. J. Edgar Hoover
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

Your book, Masters of Deceit, sums up very clearly the Communist plan for America. There can be no denying that the Communists are constantly hard at work to undermine our country, and perhaps with greater zeal than some Americans display in protecting their basic freedoms. Not voicing dissent through the proper channels, i. e. Congressman or other government leaders, failure to vote, plain ignorance or disregard for "what is going on"--these things are the nourishment on which Communism thrives.

It is sad to note that not everyone is granted his right to speak out against this menace, as was the case with General Walker. Even our own President, surprisingly enough, fails to see any "internal" danger.

Now, when we are celebrating the holiest of seasons, it is the best time to express gratefulness for what you and the other men in your Bureau are and have been doing. You will be remembered in my prayers.

Respectfully,

Dear Mr. Hoover:

A few weeks ago I listened to the TV broadcasts of the Christian Anti-Communists. Box 890 Long Beach, California. I sent for copies of some of their work and received a packet of literature.

Now, today, I receive a Communist magazine: "Northern Neighbors" Box 1000 Gravenhurst, Ontario, Canada. I want to know how they got my name and why they sent the magazine to me? - and is there some connection that is likely to account for the coincidence?

More recently I listened to the TV broadcasts of "Project Alert". It seems to me that this group represents an uprising of the capitalists- for the first time- almost a revolution such as occurred originally and brought the first Americans to our shores. But I know people who think this group is suspect.

One friend thinks the only reliable source of information is from a course on Communism now offered by the University of California at Westwood. But the only person I ever know who was sympathetic with Communism was on that faculty.

I understand that the F.B.I. collects facts but does not give them out readily. Surely the American people have a right to your findings? Why could you not give some kind of clearance card, - upon request- to speakers who are to address us? Or: why could you not publish a survey of judgement concerning the various groups we hear from so much just now?

I have bought your book: "Masters of Deceit" and will read it.

Best wishes to you in your important work.

Sincerely,

My Dear Sir:--

In "Drovers Journal" of U S Stock Yards, Chicago, recently there was a Write-up" of Communist infiltration in the United States and it referred to the book "Masters of Deceit" for further information.

Am enclosing 50¢, the price they said it would be, for a copy, and would you please send me one.

Our "Taxpayers" organization here has been taking up this subject---has shown the film "Operation Abolition" and had posted men, to speak at the meetings---It seems that this is getting serious and people should awaken, and do something about it.

I believe your book may be used and referred to, at the meetings, and might do a lot of good.

This organization was started to investigate the heavy taxes the people are struggling under; with the hope of finding some relief. But recently switched over ^{to} the the question of "Infiltration of Communists in the U. S.".

Awaiting receipt of your book "Masters of Deceit", I remain,

Respectfully yours, REC-7

TO DIRECTOR, FBI

FROM SAC, SAN FRANCISCO (80-612)

MASTERS OF DECEIT"

As the Bureau is aware Rotary International, through its various district governors in Northern California, is undertaking a project of making certain that public schools and libraries have available copies of the Director's book.

Rotary anticipates that more than 1,000 books will be distributed through the individual clubs in the near future. FRANK THORNTON SMITH, Governor, District 522, Stockton, California, has written this office advising he is organizing a district conference for Rotary International which will meet in Monterey, California, January 25-27/62. The theme of this meeting is "All American" and he would like to have a suitable exhibit relating to the Director's book and the fight against Communism for prominent display during the conference. He has indicated that a display board similar to a "Top Ten Fugitive" board or the display board entitled "What You Can Do to Fight Communism and Preserve" which could be hung on a wall or stand up on an easel would be appropriate.

It is suggested the Bureau comply with this request if at all possible by sending an appropriate display from the Exhibit Section, possibly using paper covers or any promotional material which may have been used by the publishers in book stores.

Dear Captain

Your letter dated December 18, 1961, has been received, and I want to thank you for commenting so positively regarding the honor bestowed upon me in the Criss letter concerning my speech on that occasion. ~~It is a pleasure to have you, under separate cover, copies of the complete text and remarks.~~

In response to your inquiry, there is no connection between the statement you mentioned in your communication. By Presidential Directive of September 6, 1950, this Bureau was designated as the civilian intelligence agency primarily responsible for protecting the Nation's internal security. This Bureau is continuing to handle its responsibilities with the same dispatch and thoroughness that have characterized our investigations in the past.

Sincerely yours,

Dear Sir,

Congratulations on your award and speech of 7 December. I am glad you are not muzzled. Please send 12 copies of that speech if available, My study groups use them.

I believe a follow up book to "Masters of Deceit" would be very appropriate in the near future.

Time magazine of Dec 8th stated that one of the right wing groups had said the FBI was no longer to investigate Communism, I wonder if you could set me straight on that information? Thank you.

Sincerely
